1. Start with an 11" x 3 1/2" and score at 4" and 7". This is the outside of your package.
2. Now you'll need to make three pockets. You will make two (2) at the sizes above and one that is 3 1/4" x 4 1/2". You will score that one with exactly the same measurements as above (1 1/2" in on either side on of the 3 1/4" and 1" in on both sides of the 4 1/2" side). You will end up with a small pocket that is only 1/4" wide, just perfect for some linen thread!
3. In the drawing above, you will score on the solid lines and cut in on the dotted lines.
4. Affix all three boxes to the bottom of the outside piece and to each other. I did not affix to the front flap so it could open up.

The tags I made for this project were 2 1/2" x 3" and fit in the pockets just perfectly. Here is a picture of the completed project.
